Summary

I'm a super curious guy and a computer freak. I am very conscious about my carrier and had planned about it, I am interested in machine ;learning and computer programming. I have all my fundamentals cleared and I am a type of self-learned programmer. I spend a lot of time coding and developing ML and Automation software. Love Physics and Software! ⚡#

Experience

Machine Learning Developer
Brainlox
Jun 2021 - Present (1 year 1 month +)
Designed, implemented, and evaluated new models and rapid
software prototypes to solve problems in machine learning and systems
engineering. Researched, designed and implemented machine
learning applications to solve business problems affecting the business.
Implemented and evaluated artificial intelligence and machine
learning algorithms and neural networks for diverse industries.
Composed production-grade code to convert machine learning
models into services and pipelines to be consumed at web scale.

Co-Founder
ComiOrc
Apr 2021 - Present (1 year 3 months +)

Cyber Security & Defensive Hacking Internship
GlobalShala
May 2022 - Jun 2022 (2 months)
A learning experience with GlobalShala with a team full of exposure and experience. I was the team lead and had responsibility for the welfare of the team. We had individual roles, however, worked together for better outcomes. This 4 week's internship was completely based on cybersecurity safeguarding. We developed tools and learned many ways to enrich the safety of various aspects of the Internet and personal computer.

Education

ICS Mahesh PU College Dharwad.
Pre-University , Science
2021 - 2023

K.L.E Society Smt C B Ranamode School
10, School
2020 - 2022

Licenses & Certifications

Machine Learning with Python - freeCodeCamp

Skills

Penetration Testing • Bash • Machine Learning • Blockchain • Python (Programming Language) • Artificial Intelligence (AI) • Neural Networks • Ethereum • Solidity • Smart Contracts
